WHY BUY TRADITIONS™

Each year, the Traditions™ team works to develop the most innovative & user-friendly firearms. Like you, we are hunters & shooters & understand what you are looking for in a firearm. We continue to take innovation to the next level by developing cutting-edge technology & have been recognized for this innovation the past four years by being awarded Field & Stream's Best of the Best award, Editor's Choice Awards & other accolades.

TRADITIONS™ & ACCURACY

Traditions™ consistently produces some of the most accurate muzzleloaders on the market. Many of our firearms are outfitted with features that provide proven accuracy well beyond 200 yards. You can rely on your Traditions™ muzzleloader to be dead on accurate.

CHROMOLY BARREL

The barrels of Traditions™ muzzleloaders are built with premium grade Chromoly steel. Chromoly has long been recognized as the best barrel material for strength & accuracy among centerfire rifles. By incorporating this material into our barrels, Traditions™ has raised the bar for modern muzzleloader performance & accuracy.

LIFETIME LIMITED WARRANTY

At Traditions™, we believe in the quality, performance & value of our firearms. We stand behind our products & that's why we back all of them with lifetime limited warranties.

SAFETY IS ALWAYS FIRST

Traditions™ has put safety first & foremost when developing our muzzleloaders. Many of our firearms come with a Dual Safety System which is only on Traditions™ firearms. You will not see this level of safety on our competitor's guns. The Vortek StrikerFire® & the Vortek StrikerFire® LDR models are outfitted with a trigger block safety & an internal striker block safety. On the Vortek™ Ultralight & Vortek™ Ultralight LDR models a rebounding hammer & trigger block safety are featured. On the popular Pursuit™ G4 Ultralight & Buckstalker™ models they are both equipped with a trigger block safety & internal hammer block safety. Traditions™ has made safety standard & a priority in our firearms.

TRADITIONS™ TECHNOLOGY

NITRIDE COATING

Our Nitride Finish coats both the outside & inside of the barrel to give you maximum protection against weather & corrosion. This coating helps keep your rifle from pitting & also gives you increased accuracy.

LT-1 ALLOY FRAME

Traditions™ LT-1 Alloy Frame reduces the weight of the firearm while maintaining strength & structural integrity. Great for reducing arm fatigue on long hunts, where mobility is crucial.

PREMIUM CERAKOTE FINISH

Premium CeraKote Finish is 50x more corrosion resistant than stainless steel barrels. The Premium CeraKote Finish on both the barrel & frame was designed to provide a high quality, long lasting finish, with high corrosion protection & durability.

STRIKERFIRE SYSTEM

No more external hammer! Simply slide the striker button forward until it locks & the rifle is cocked. This system allows for faster lock time, a crisp trigger, the ability to mount your scope closer to the bore & also operate with less weight.

TAC2™ TRIGGER

The TAC2™ Trigger is the best trigger on any muzzleloader. This clean-breaking, two-stage, creep-free, competition-style trigger is set at a mere two pounds available only on StrikerFire® models.

SPEED LOAD SYSTEM

Traditions™ Speed Load System allows for a bullet that is perfectly centered with the barrel rifling, allowing you easier bullet starting & more consistent groups.

ACCELERATOR BREECH PLUG

The Accelerator Breech Plug removes easily by hand in just three full turns.

To clean your muzzleloader or remove a load from the barrel, simply twist the breech plug three full rotations & it's out! The Accelerator Breech Plug™ makes use of a new flat face for even more consistent ignition & a heavy-duty O-ring that eliminates blow back.

QUICK-T™ RAMROD HANDLE

The Quick-T™ Ramrod Handle functions like a palm saver & a t-handle all in one! This makes it easier & more comfortable to

load your rifle. The Quick-T™ Ramrod handle is available as an accessory or in a package with the replacement ramrod to fit your Traditions™ muzzleloader!

DUAL SAFETY SYSTEM

Incorporates two safeties, making equipped break actions some of the safest muzzleloaders available. The trigger block safety is the most apparent as it is positioned on the trigger guard, like many centerfire rifles. The second safety is an internal hammer block safety that prevents the hammer from engaging the firing pin unless it has been manually cocked. The combination of these two safety systems allow you to break open the rifle & remove your live primer without having to depress your hammer.

NITRIDE COATED MUZZLELOADERS

PROTECT YOUR RIFLE ON THE INSIDE & OUTSIDE

For 2016, Traditions™ has upped the ante by coating selected models of our muzzleloaders with a finish designed to protect your rifle both inside & out. Nitride Coating, a well-recognized finish used by many manufacturers, provides a layer of protection both on the inside & outside of your barrel. This finish

protects your rifle from rust & pitting caused by weather & corrosion. While protecting your rifle, it also provides increased accuracy & extends the life of your muzzleloader. Traditions™ is a game changer for you & your muzzleloader season!

VORTEK STRIKERFIRE® LDR

EXTEND YOUR RANGE & ACCURACY

JOIN THE HAM

The Vortek StrikerFire® LDR is the most innovative rifle on the market & will be the most accurate rifle you will ever own. With a 30" Chromoly barrel, you will be able to reach out farther with increased accuracy. The barrel is made with premium-grade Chromoly steel which is commonly used on centerfire rifles & known for being extremely strong, lightweight, & accurate. The 30" barrel allows for a longer powder burn which translates to increased velocity, better consistency, & better downrange accuracy. When distance counts, the Vortek StrikerFire® LDR is the one you want! This patented rifle comes with the StrikerFire system as well as the TAC2™ Trigger system. This upgraded trigger is a two-stage, competition-style trigger set at two pounds. The Vortek StrikerFire® LDR is feature-rich & will give you confidence when you need that 250+ yard shot.

TAC2™ Trigger - two-stage trigger set at two pounds

STRIKERFIRE SYSTEM

No more external hammer! Simply slide the striker button forward until it locks & the rifle is cocked. This system allows for faster lock time, a crisp trigger, the ability to mount your scope closer to the bore & also operate with less weight.

CANNONS

WORKING ARTILLERY IN MINIATURE

Traditions™ Cannons are fully operational & accurate in scale & detail. These are perfect for shooting especially around Memorial Day & the 4th of July. Available in a variety of types & plating, these cannons are sure to be a fun tradition for you for years to come!

1. NAPOLEON III & 5. MINI NAPOLEON III

Reminiscent of the cannon used by the armies of both the North & South during the Civil War. Built in two sizes, each featuring metal-rimmed wheels. Offered in large scale .69 caliber with authentic accessories & .50 caliber mini version.

2. MINI OLD IRONSIDES

British guns proved no match for the deck guns of the U.S.S. Constitution. Our replica features authentically-styled naval carriage & barrel.

3. YORKTOWN

Field artillery came into its own during the American Revolution, notably in General Washington's victory at the Battle of Yorktown. This faithful model features the split-trail carriage that gave our army mobility.

4. OLD IRONSIDES

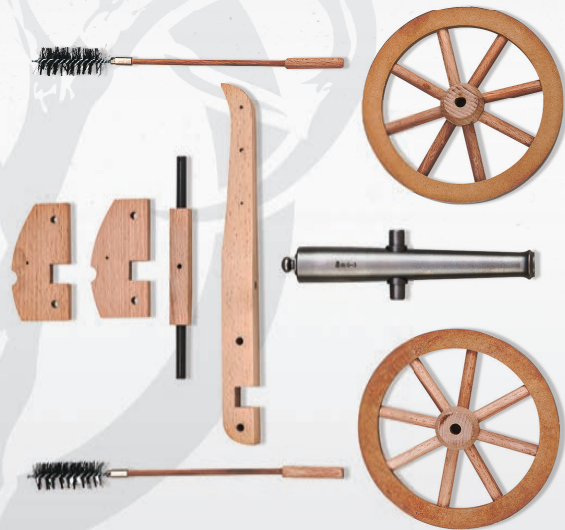

Nearly three-times heavier than its little brother, the Mini Old Ironsides. This .69 caliber has the look & feel of a working piece of artillery.

PA PELLET™ ACCELERATOR

THE ONLY THING PRIMITIVE IS THE SEASON

The Traditions™ PA Pellet™ Accelerator flintlock is an updated version of one of our most popular rifles. It is the only flintlock muzzleloader able to fire both loose or pelletized powder due to the Accelerator Breech Plug™. Along with the Accelerator Breech Plug™ the PA Pellet™ Accelerator has

an improved, stronger flintlock with a larger frizzen face & special hardening treatment. This enables for a more consistent ignition & better spark. Other additions to this rifle include Williams™ metal fiber-optic sights & soft touch camo stocks.

A classic American pistol, the Kentucky was a must have for American Pioneers & early 19th Century Explorers. The Kentucky was made famous by the battle of New Orleans & favored by Davey Crockett. It was a favorite because of its one piece stock with superb balance & features like a birds head grip, fixed sight, case colored sidelock & brass ramrod thimbles. The Kentucky will please both the collector & novice alike. Whether you are a die hard or just a weekend enthusiast your fully functional Kentucky will meet your needs.

TRAPPER PISTOL

Most of the early mountain men & traders carried a single-barreled pistol & they were popular for years. These pistols had proven themselves reliable, & that was of great importance to a trapper who might have to stake his life on a pistol's ability to provide a back-up shot in what could be a desperate situation. The Trapper pistol's primitive-style adjustable rear sight, octagonal barrel & double-set triggers (capable of firing set or unset) allow you to predictably put your shots on target.

BLACK POWDER REVOLVERS

AUTHENTIC REPRODUCTIONS

YANKEE REVOLVERS

Union Army soldiers relied on many different types of sidearms for short range & close quarters combat. The revolver was unique in that it had the ability to fire several rounds per minute before having to reload. Revolvers were typically issued to officers & mounted soldiers, however some were purchased privately or found on the battlefield by infantryman.

The 1851 Navy Revolver is distinguished by its' octagonal barrel & lever style loader. The 1851 helped to begin both the expansion of the West & the Civil War. The 1851 Navy is commonly considered to be one of gunfighter "Wild Bill" Hickok's favorite handguns.

Although the resourcefully equipped Confederate soldier could not compete with Union repeating rifles, it was a different story when it came to revolvers. These handguns did not typically require special ammunition, making them easy for Southern troops to acquire & operate.

CRACKSHOT™

GREAT FOR PLINKING & SMALL GAME HUNTING

Tradition's popular Crackshot™ rifle is a single shot cartridge rifle perfect for small game hunting & plinking. Weighing just over 4 pounds, this gun is lightweight & easy to carry. It is available in .22 or 17HMR. The Crackshot™ has many great features that make this gun easy to use. The rifle has an extractor built in so removing the blank is simple. The manual trigger block safety allows the rifle to be safe & the checkered forend provides a better grip. The takedown feature allows you to remove the front sling swivel

stud to take off the forend & remove the barrel. This feature allows the rifle to break down when needed!

The Crackshot™ comes with a one-piece base already mounted on the rifle. It's available in a variety of camo patterns as well as youth models. For 2016, this truck gun now has the option of having a 20" barrel for increased accuracy. Pick up a Crackshot™ & feel the difference!

SINGLE ACTION REVOLVERS

FRONTIER & RAWHIDE SERIES

FRONTIER SERIES

The Frontier Series showcases all of our top quality features & finishes. We offer our 1873 Single Action revolvers with your choice of blued, nickel, or color-case hardened frames & blued or nickel barrels, all polished to perfection. Additionally, you can select from white PVC or walnut grips. The Frontier Series revolvers are truly shooting works of art & will look great at the range or on display in your home. Again, these revolvers come equipped with the transfer bar safety system to give you the highest level of safety possible.

Traditions™ takes great pride in offering authentic replicas of perhaps the most famous handgun ever made. The 1873 Single Action Revolver has only slight variations from the 1873 Colt Single Action Army Revolver, arguably the best selling pistol ever produced. This six shooter from the Old West was the favorite of Wild Bill Hickok, Wyatt Earp, Calamity Jane & many other notorious frontiersmen. With two series to select from, the Frontier Series & the Rawhide Series, there are a wide selection of finishes,

SNAP CAPS

PROTECT YOUR FIREARMS

Snap caps are made to protect your firearms by relieving the stress on your firing pins & firing pin springs. When you safely store your unloaded gun, put a snap cap in the chamber & fire your gun to allow the firing pin to lay at rest. This will help prevent firing pins from breaking in the future.

Snap caps are also a great tool to practice dry firing your guns to teach safe gun handling, improve your shooting skills & tune your trigger. We offer three types of Snap Caps for your convenience – Plastic, Aluminum & Brass Snap Cap!

TROPHY ROOM

SUCCESS OUT IN THE FIELD

RHETT HALL
shot this nice buck with his Vortek StrikerFire® in Iowa while hunting with Mark Drury of Drury Outdoors. His buck scored a 157 4/8". Way to go Rhett!

COLE WARD
harvested his first deer ever during Virginia's Youth Season with his Vortek StrikerFire®! We're sure this will be the first of many Cole!

BENJAMIN MAHONEY
was using his .54 caliber Hawken™ when he downed this huge buck!

TIFFANY LAKOSKY
ended her three year hunt for a buck named Wally, which was her biggest buck to date. She harvested this stud with her trusty Vortek StrikerFire® while eight months pregnant with their son Cameron in Iowa. This buck scored 190!

TAYLOR DRURY

A host on **DRURY OUTDOORS**, shot her biggest buck to date with her Vortek StrikerFire®!

GARY LEVOX

of **RASCAL FLATTS**, harvested this nice Iowa buck with his Vortek StrikerFire®! Looks like a great combo!

WENDY LAFEVER

of **NRA FAMILY**, was in Texas with her Vortek StrikerFire® when she dropped this nice buck.

GEORGIA-KATE MCFERRIN

shot her first elk in New Mexico while using her Pursuit™ G4 Ultralight!

LEE LAKOSKY

A host on **THE CRUSH** with **LEE & TIFFANY**, harvested this enormous elk with his Vortek StrikerFire®!

CHRISTOPHER MOROSKI

took down this buck while hunting in Rhode Island with his Vortek™ Ultralight!
