PERFORMANCE FIREARMS

2018 **PRODUCT CATALOG**

FEEL THE DIFFERENCE.

TO OUR CUSTOMERS:

Welcome! Thank you for taking the time to browse our 2018 catalog. Just like you, we are hunters & shooters so each year we take a hard look at our product lineup & think about how we can improve your time in the field. We are focused on innovation & adding new products into our lineup! Keep checking our website & social media as we may be releasing some new products this year that aren't in our catalog!

For 2018, we've added to our popular Outfitter G2 lineup. Now calibers 450 Bushmaster & 444 Marlin are available & some models come with an easy takedown forend. The Lothar Walther barrels on the Outfitter G2 are incredibly accurate & you won't be disappointed with this single-shot cartridge rifle.

We are also expanding our bullet lineup. We know how important bullets & the combination you are putting into your

muzzleloader are so we've developed some different options for weights so you can really get your muzzleloader dead on accurate. Check out our new offerings on pages 46-47!

Keep up with us online! Be sure to check out www.traditions-firearms.com as we add new products. We are also adding to our series of How-To videos which can be found on our YouTube & website. These videos can provide helpful step-by-step information when working on your firearm. Check us out on Facebook, Instagram, & Twitter. We are always posting new photos, videos, & giveaways. Don't forget to send us your success photos on social media!

Thanks for your time. We're sure you'll feel the difference in our products! See you in the field!

WHY BUY TRADITIONS™

PERFORMANCE, VALUE & QUALITY.

Each year, the Traditions™ team works to develop the most innovative & user-friendly firearms. Like you, we are hunters & shooters & understand what you are looking for in a firearm. We continue to take innovation to the next level by developing cutting-edge technology & have been recognized for this innovation the past four years by being awarded Field & Stream's Best of the Best award, Editor's Choice Awards & other accolades.

TRADITIONS™ TECHNOLOGY

NITRIDE FINISH.

Our Nitride Finish coats both the outside & inside of the barrel to give you maximum protection against weather & corrosion. This finish helps keep your rifle from pitting & also gives you increased accuracy.

TRADITIONS™ & ACCURACY.

Traditions™ consistently produces some of the most accurate muzzleloaders on the market. Many of our firearms are outfitted with features that provide proven accuracy well beyond 200 yards. You can rely on your Traditions™ muzzleloader to be dead on accurate.

LIFETIME LIMITED WARRANTY.

At Traditions™, we believe in the quality, performance & value of our firearms. We stand behind our products & that's why we back all of them with lifetime limited warranties.

SAFETY IS ALWAYS FIRST.

Traditions™ has put safety first & foremost when developing our muzzleloaders. Many of our firearms come with a Dual Safety System which is only on Traditions™ firearms. You will not see this level of safety on our competitor's guns. The Vortek StrikerFire® & the Vortek StrikerFire® LDR models are outfitted with a trigger block safety & an internal striker block safety. On the Vortek™ Ultralight & Vortek™ Ultralight LDR models a rebounding hammer & trigger block safety are featured. On the popular Pursuit™ G4 Ultralight & Buckstalker™ models they are both equipped with a trigger block safety & internal hammer block safety. Traditions™ has made safety standard & a priority in our firearms.

STRIKERE FIRE SYSTEM

No more external hammer! Simply slide the striker button forward until it locks & the rifle is cocked. This system allows for faster lock time, a crisp trigger, the ability to mount your scope closer to the bore & also operate with less weight.

LT-1 ALLOY FRAME

Traditions™ LT-1 Alloy Frame reduces the weight of the firearm while maintaining strength & structural integrity. Great for reducing arm fatigue on long hunts, where mobility is crucial.

TAC2™ TRIGGER

The TAC2™ Trigger is the best trigger on any muzzleloader. This clean-breaking, two-stage, creep-free, competition-style trigger is set at a mere two pounds available only on StrikerFire® models.

QUICK-T™ RAMROD HANDLE

The Quick-T™ Ramrod Handle functions like a palm saver & a t-handle all in one! The Quick-T™ Ramrod handle is available as an accessory or in a package with the replacement ramrod to fit your Traditions™ muzzleloader!

ACCELERATOR BREECH PLUG™

The Accelerator Breech Plug™ removes easily by hand in just three full turns. To clean your muzzleloader or remove a load from the barrel, simply twist the breech plug three full rotations & it's out! The Accelerator Breech Plug™ makes use of a new flat face for even more consistent ignition & a heavy-duty O-ring that eliminates blow back.

DUAL SAFETY SYSTEM

Incorporates two safeties, making equipped break actions some of the safest muzzleloaders available. The trigger block safety is the most apparent as it is positioned on the trigger guard, like many centerfire rifles. The second safety is an internal hammer block safety that prevents the hammer from engaging the firing pin unless it has been manually cocked. The combination of these two safety systems allow you to break open the rifle & remove your live primer without having to depress your hammer.

PREMIUM CERAKOTE COATING

Premium CeraKote Coating is 50x more corrosion resistant than stainless steel barrels. The Premium CeraKote Coating on both the barrel & frame was designed to provide a high quality, long lasting coating, with high corrosion protection & durability.

SPEED LOAD SYSTEM

(Pursuit™ & Buckstalker models only) This system allows for a bullet that is perfectly centered with the barrel rifling, allowing you easier bullet starting & more consistent groups.

VORTEK STRIKERFIRE® BACK COUNTRY

LEE LAKOSKY
a host on *The Crush with Lee & Tiffany* had his StrikerFire® in hand when he dropped this giant.

R549246NS

MAKE YOUR LONG HUNT EASIER.

The Vortek StrikerFire® Back Country has all the outstanding features of the Vortek StrikerFire® except it features a 26" barrel. This makes the rifle **easy to carry, more maneuverable, & lighter** when weight counts. This is the muzzleloader you want with you in the back country when you'll walk mile after mile & need a rifle that doesn't weigh you down. Smaller framed shooters can also **use this rifle more comfortably thanks to the reduced barrel length.**

JORDAN SHIPLEY

a host on **The Bucks of Tecomate**, made a 230 yard shot with his StrikerFire® on this Texas whitetail.

250+ YARDS **WITHOUT BREAKING A SWEAT.**

The Vortek StrikerFire® LDR is the most innovative rifle on the market & will be the most accurate rifle you will ever own. With a 30" Chromoly barrel, you will be able to reach out farther with increased accuracy. The 30" barrel allows for a longer powder burn which translates to increased velocity, better consistency & better downrange accuracy.

BENEFITS OF A 30-INCH BARREL

The Vortek StrikerFire® LDR was built for those 250+ yard shots. With the 30" barrel you are going to get a more complete powder burn. This translates into increased velocity, better consistency & better down-range accuracy. The Vortek StrikerFire® LDR will give you confidence in those 250+ yard shots.

CANNONS

Traditions™ Cannons are fully operational & accurate in scale & detail. These are perfect for shooting especially around Memorial Day & the 4th of July. Available in a variety of types & plating, these cannons are sure to be a fun tradition for you for years to come!

1. NAPOLEON III & 5. MINI NAPOLEON III

Reminiscent of the cannon used by the armies of both the North & South during the Civil War. Built in two sizes, each featuring metal-rimmed wheels. Offered in large scale .69 caliber with authentic accessories & .50 caliber mini version.

2. MINI OLD IRONSIDES

British guns proved no match for the deck guns of the U.S.S. Constitution. Our replica features authentically-styled naval carriage & barrel.

3. YORKTOWN

Field artillery came into its own during the American Revolution, notably in General Washington's victory at the Battle of Yorktown. This faithful model features the split-trail carriage that gave our army mobility.

4. OLD IRONSIDES

Nearly three-times heavier than its little brother, the Mini Old Ironsides. This .69 caliber has the look & feel of a working piece of artillery.

6. MOUNTAIN HOWITZER

The Mountain Howitzer will be a great addition to any Civil War enthusiast's collection! This mini cannon is reminiscent of the larger version used during various wars but notably during the Civil War. Our replica is smaller, lighter, & fully functional.

CANNON KITS

Our Build-It-Yourself cannon kits are one of the best ways to get a real hands-on experience! With easy step-by-step instructions, these kits are simple to assemble. Great for families, groups & clubs to do together & when finished you will have a fully functional cannon that you can use!

MINI NAPOLEON III

History buffs will love the Mini Napoleon cannon kit, it is reminiscent of those used by both Union & Confederate troops during the Civil War.

KCN8021

OLD IRONSIDES

The Old Ironsides is an even larger version of our Mini Old Ironsides. This .69 caliber cannon is an authentic version of those found on the U.S.S. Constitution & is three times as big & three times the fun!

KCN8052

MINI OLD IRONSIDES

Own & build your own piece of history. The Mini Old Ironsides is a replica of those that once sat on the deck of the U.S.S. Constitution.

KCN8041

MOUNTAIN HOWITZER

The Mountain Howitzer kit is perfect for the Civil War enthusiast who would like to have a miniature, fully functional version of this historic cannon.

PA PELLET™ ULTRALIGHT

Traditions™ PA Pellet™ Ultralight just became a game changer for your Flintlock season! Based off the popular PA Pellet™ Flintlock, Traditions™ has changed the barrel to be made of a premium grade Chromoly steel, which is typically found on centerfire rifles. This material makes the barrel extremely strong, lightweight, & accurate. The new 1:28" twist allows you to fire sabot bullets & modern muzzleloading projectiles. Additionally, the barrel has a Nitride Finish which is designed to protect both the inside & outside of your barrel against rust & pitting caused by weather & corrosion.

DEERHUNTER™

It doesn't matter your level of experience, the Deerhunter™ will fit your needs. It has been designed to be lightweight, easy to shoot & incredibly accurate for a very modest price. This rifle has a 24" octagonal barrel & the choice between rugged synthetic or wood stock. The Deerhunter is designed to shoot full bore sized bullets, sabot bullets & patched round balls accurately. Sitting on top of the rifle are adjustable Williams™ metal fiber-optic sights that give you pinpoint accuracy in regular or low light conditions.

CLASSIC MUZZLELOADERS

R9250801

MOUNTAIN RIFLE

Based off of a Jacob & Samuel Hawken design, the Mountain Rifle was the inseparable companion of fur trappers & American explorers alike. Part of the "plains rifle" family, the Mountain Rifle could be found on the horsebacks of fur trappers looking for beaver & other pelts thanks to its long barrel which enabled this rifle to take targets at longer distances. While the original had a rust brown finish on the barrel, Traditions has selected a Brown CeraKote coating which replicates this finish while providing increased corrosion resistance. The Patch Box, custom scrolled trigger guard, & many other features make this a gun you'll want to add to your collection.

R2170

PRAIRIE HAWKEN™ RIFLE

Traditions™ Prairie Hawken™ Rifle is based off of rifles used during the Rocky Mountain Fur Trading era. This rifle is an excellent addition to any collection. These guns were the trusted companions of fur traders as they hunted for pelts. The Prairie Hawken™ Rifle features a 2-tenon design & is available in either percussion or flintlock. The double set trigger, custom silver inlays, & finishes add to the beauty of this sidelock rifle.

R2390801

HAWKEN™ WOODSMAN RIFLE

Hawken™ Woodsman is a serious hunting rifle. The Woodsman has the classic styling & handling of the time-honored Hawken™ while offering great performance & affordability. Both the percussion & flint models boast a hooked breech for easy barrel removal, click-adjustable rear hunting sight, double-set triggers in an oversized glove-fitting trigger guard with finger rest & an inletted solid brass patch box.

CLASSIC PISTOLS

P1060

KENTUCKY PISTOL

A classic American pistol, the Kentucky was a must have for American Pioneers & early 19th Century Explorers. The Kentucky was made famous by the battle of New Orleans & favored by Davy Crockett. It was a favorite because of its one piece stock with superb balance & features like a birds head grip, fixed sight, case colored sidelock & brass ramrod thimbles. The Kentucky will please both the collector & novice alike. Whether you are a die hard or just a weekend enthusiast your fully functional Kentucky will meet your needs.

P1100

TRAPPER PISTOL

Most of the early mountain men & traders carried a single-barreled pistol & they were popular for years. These pistols had proven themselves reliable, & that was of great importance to a trapper who might have to stake his life on a pistol's ability to provide a back-up shot in what could be a desperate situation. The Trapper pistol's primitive-style adjustable rear sight, octagonal barrel & double-set triggers (capable of firing set or unset) allow you to predictably put your shots on target.

BLACK POWDER REVOLVERS

YANKEE REVOLVERS

Union Army soldiers relied on many different types of sidearms for short range & close quarters combat. The revolver was unique in that it had the ability to fire several rounds per minute before having to reload. Revolvers were typically issued to officers & mounted soldiers, however some were purchased privately or found on the battlefield by infantryman. The 1851 Navy Revolver is distinguished by its octagonal barrel & lever style loader. The 1851 helped to begin both the expansion of the West & the Civil War. The 1851 Navy is commonly considered to be one of gunfighter "Wild Bill" Hickok's favorite handguns.

REBEL REVOLVERS

Although the resourcefully equipped Confederate soldier could not compete with Union repeating rifles, it was a different story when it came to revolvers. These handguns did not typically require special ammunition, making them easy for Southern troops to acquire & operate.

1858 NEW ARMY REVOLVERS

Designed to be the future of revolvers, the top strap, full frame design made the 1858 New Army Revolver one of the strongest available. During the Civil War, its 8" barrel (with the exception of the 1858 Bison Revolver) & reliability made it highly sought after.

1860 ARMY REVOLVERS

Recognized as the mainstay of the Union Army, the 1860 was ordered to fill the ranks. The .44 caliber revolver was as powerful as it was popular. After the Civil War, 1860 revolvers could long be found in Army posts & across the Frontier.

SNAP CAPS

Snap caps are made to protect your firearms by relieving the stress on your firing pins & firing pin springs. When you safely store your unloaded gun, put a snap cap in the chamber & fire your gun to allow the firing pin to lay at rest. This will help prevent firing pins from breaking in the future.

Snap caps are also a great tool to practice dry firing your guns to teach safe gun handling, improve your shooting skills & tune your trigger.
