We've also added new black powder revolvers, classic muzzleloaders, and many new accessories that will make your time in the field or at the range easier and more enjoyable. Check us out at www.traditionsfirearms.com where you can find product information, dealers, how-to videos, and more. Be sure to keep up with us on social media including Facebook, Instagram, and YouTube for all the latest Traditions news.

We live for the opportunity to go hunting and this fall my daughter Alison and I were on a hunt in Nebraska. I was able to be with her when she harvested her first whitetail buck. It was an experience of a lifetime that the both of us will never forget. These were special days for me and I enjoyed our time together. I hope there are many more opportunities to hunt with Alison in the future continuing our hunting Traditions and making unforgettable memories.

I appreciate your time and hopefully your business. See you in the field!

Best Regards,

TO OUR CUSTOMERS:

Welcome! Thank you for taking the time to look through our 2020 catalog. We are truly excited for 2020 and the new products we are bringing into the market. We continue to focus on innovation and creating products that will make your time in the field more enjoyable. We use lessons and feedback we've learned from important to us. We want to build quality and value into all of our products.

For 2020, we are excited to introduce the NitroFire™ muzzleloader. We've teamed up with Federal® Premium to change the muzzleloading industry. The NitroFire™ is the only muzzleloader in the market that utilizes the NEW Federal® Premium® Firestick™ which is an encapsulated powder charge that you load from the breech area after loading your bullet. To learn more about the NitroFire™ and Federal® Premium technology check out pages 6 and 7. We know you'll be amazed at the innovation Traditions™ and Federal Premium® have worked together to create. Along with new features like the Elite XT™ Trigger this is a muzzleloader you'll need to check out.

Traditions™ also introduces for 2020 the Outfitter G3. We've revamped our popular Outfitter line to now include the NEW Elite XT™ Trigger and to include the caliber of 350 Legend. The accuracy of the Lothar Walther Premium Barrel is outstanding and if you are in the market for a new cartridge platform check it out.

We've also added new black powder revolvers, classic muzzleloaders, and many new accessories that will make your time in the field or at the range easier and more enjoyable. Check us out at www.traditionsfirearms.com where you can find product information, dealers, how-to videos, and more. Be sure to keep up with us on social media including Facebook, Instagram, and YouTube for all the latest Traditions news.

Best Regards,
NITRIDE FINISH. Our Nitrade Finish coats both the outside & inside of the barrel to give you maximum protection against weather & corrosion. This finish helps keep your rifle from pitting & also gives you increased accuracy.

TRADITIONS™ ACCURACY. Traditions™ consistently produces some of the most accurate muzzleloaders on the market. Many of our firearms are outfitted with features that provide proven accuracy well beyond 200 yards. You can rely on your Traditions™ muzzleloader to be dead on accurate.

LIFETIME LIMITED WARRANTY. At Traditions™, we believe in the quality, performance & value of our firearms. We stand behind our products & that's why we back all of them with lifetime limited warranties.

SAFETY IS ALWAYS FIRST. Traditions™ has put safety first & foremost when developing our muzzleloaders. Many of our firearms come with a Dual Safety System which is only on Traditions™ firearms. This conforms to the level of safety our competitors are beginning to recognize. The Vortek StrikerFire® & the Vortek StrikerFire® LDR models are outfitted with a trigger block safety & also a hammer block safety. Traditions™ makes safety standard & a priority in our firearms.

STRIKERFIRE SYSTEM. No more external hammer! Simply slide the striker button forward until it locks & the rifle is cocked. This system allows for faster lock time, a crisp trigger, the ability to mount your scope closer to the bore & also operate with less weight.

ACCELERATOR BREECH PLUG®. The Accelerator Breech Plug® is an easy-to-use feature that allows you to pull or push out your ramrod inside the barrel. The Accelerator Breech Plug® makes sure your ramrod will not scratch your barrel & that the accelerator breech plug will remain in place when you remove your muzzleloader from the case.

DUAL SAFETY SYSTEM. Incorporates two safeties, making equipped break actions some of the safest muzzleloaders available. The trigger block safety is the most obvious as it is positioned on the trigger guard, like many centerfire rifles. The second safety is an internal hammer block safety that prevents the hammer from engaging the firing pin unless it has been manually cocked. The combination of these two safety systems allow you to break open the rifle & remove your live primer without having to depress your hammer.

WHY BUY TRADITIONS™. Performance, Value & Quality. Each year, the Traditions™ team works to develop the most innovative & user-friendly firearms. Like you, we are hunters & shooters & understand what you are looking for in a firearm. We continue to take innovation to the next level by developing cutting-edge technology & have been recognized for this innovation with numerous awards and accolades.

TRADITIONS™ TECHNOLOGY
Traditions™ has been a leader in the muzzleloading industry for years with their innovation. Now, the future of muzzleloading is here with the NEW NitroFire™ muzzleloader. The NitroFire™ is the only muzzleloader on the market that uses the NEW Federal Premium® Firestick™. Traditions™ has teamed up with Federal® and Hodgdon® to change muzzleloading forever with this revolutionary new platform. The Firestick™ is an encapsulated powder charge containing Hodgdon Triple 8 granular powder. It provides better consistency, improved reliability, increased safety, and is impervious to moisture. This encapsulated powder charge is available in different pre-measured charges. Simply load your bullet from the muzzle and seat it on a shelf within the barrel. This shelf provides a consistent seating point for the bullet. Break open your NitroFire™ and insert your Firestick™ into the breech. Once inserted, place a 209 primer into the primer pocket of the Firestick™ and close the action. Your NitroFire™ is now loaded and ready to go!

Traditions™ NEW NitroFire™ muzzleloader helps to make muzzle loading safer, easier, and more consistent. Join the NitroFire™ revolution!

**NEW NITROFIRE™ TECHNOLOGY**

**CONSISTENT, ACCURATE SHOTS**

The Firestick™ is factory-manufactured and precision-measured so it will have the exact same load based on the selected powder charge every time. No inconsistency and no trial and error. Simply choose the powder charge you desire and use the Firestick™. No need for guesswork or relying on the powder charge. Just install the powder charge, load your bullet, and you're set.

**SAFETY IS A PRIORITY**

Traditions™ has carefully designed the Firestick™ to provide a safe and reliable system. The Firestick™ is factory-manufactured and precision-measured so it will have the exact same load based on the selected powder charge every time. No inconsistency and no trial and error. Simply choose the powder charge you desire and use the Firestick™. No need for guesswork or relying on the powder charge. Just install the powder charge, load your bullet, and you're set.

**CLEANER & CLEAN BURNING**

The NitroFire™ muzzleloader does not have a breech plug. You no longer have to remove your breech plug and make sure the fire channel is clean. There won't be inconsistency due to fouling in your breech plug. This allows for increased accuracy and improved reliability. The Firestick™ is loaded with cleaner-burning Hodgdon Triple 8 powder which will provide less fouling compared to other powders on the market.

**WATER? NO PROBLEM!**

The Firestick™ is impervious to moisture so there is no longer a worry of powder becoming inert due to condensation or weather. You can rely on the Firestick™ inside your NitroFire™ muzzleloader to remain consistent every time no matter what Mother Nature throws at you. Any unused Firestick™ can also be stored for later use.

**CHROMOLY STEEL BARREL**

The NitroFire™ Barrel is made of premium-grade Chromoly Steel. This allows the rifle to be lightweight yet strong and durable.

**ELITE XT™ TRIGGER**

Traditions™ has added the NEW Elite XT™ trigger to the NitroFire™ muzzleloader. The trigger has a precise and accurate pull that allows the trigger to be set into a captive half cock position. The captive half cock position enables the trigger to be pulled back and set so that the muzzleloader can be loaded open and your Firestick™ removed. When you're ready to fire, pull the hammer to the rear and then into the firing pin. The NitroFire™ is now fully cocked and ready to go!
A REVOLUTION IN THE MUZZLELOADING INDUSTRY

Traditions™ is proud to introduce the NEW NitroFire™ muzzleloader. This muzzleloader is the only one on the market that uses the NEW Federal Premium® Firestick™. Traditions™ has teamed up with Federal® to change muzzleloading forever with this revolutionary new platform. The Firestick™ encapsulated powder charge containing Hodgdon Triple 8 granular powder. This encapsulated powder charge is available in different pre-measured charges. Simply load your bullet from the muzzle and seat it on a shelf within the barrel. This shelf provides a consistent seating point for the bullet. Break open the action of your NitroFire™ and insert your Firestick™ into the breech. Once seated, place a 209 primer in the primer pocket of the Firestick™ and close the action. Your NitroFire™ is now loaded and ready to go!

To learn more about the benefits of the NEW NitroFire™ and Firestick™ please see pages 6 and 7.

NitroFire™ Accessories:

- Breech Cleaning Kit
- Bullet Unloading Jag
- Breech Bronze Brush
- Breech Nylon Brush

MUZZLELOADERS

MARK DRURY
of Drury Outdoors
used his Vortek StrikerFire®
and Smackdown® Bleed™ bullet to
harvest this stud!

Check out the specification & price charts located in the back of the catalog on pages 56-57 for more information.

JOIN THE HAMMERLESS REVOLUTION.

A revolution in muzzleloading, the patented Vortek StrikerFire® takes inline muzzleloading to the next level. The StrikerFire System replaces the external hammer, allowing you to cock the rifle quickly & quietly. To de-cock, simply press the recessed de-cocking button or open the action to automatically de-cock the gun. With a re-designed, recoil-reducing buttstock and buttpad shooters will enjoy increased accuracy and all skill levels will feel comfortable shooting the rifle. We invite you to pick up this revolutionary rifle & join the hammerless revolution!

MAIN FEATURES:
- Patented StrikerFire System – no external hammer.
- StrikerFire Button – simply push button forward until it locks to cock the gun.
- Recessed de-cocking button.
- TAC²™ Trigger – two-stage trigger set at two pounds.
- Weighs between 6 and 6.5 pounds depending on barrel length.
- 30”, 28” or 26” Ultralight Chromoly Tapered Fluted Barrel.
- LT-1 Alloy Frame.
- Hogue™ Comfort-Grip Overmolding.
- Trade Marked Ultralight Buttplate.

TAC²™ TRIGGER

The TAC²™Trigger is a clean-breathing, two-stage, easy-to-use, competition-style trigger, set at a mere two pounds.

OTHER FEATURES:
- Accelerator Breech Plug™
- Dual Safety System
- 209 Ignition
- 1:28 Twist Rifling
- Drilled & Tapped for a Scope
- Solid Aluminum Ramrod
- Traditions™ Limited Lifetime Warranty

Northwest Series

Specifically designed for hunters in the Northwestern part of the United States, these rifles feature an exposed musket nipple & open sights to meet state-specific regulations. Available in the Pursuit™ & Buckstalker™ series, there is a model & price point for everyone. All Northwest models feature an Accutrack™ Black Powder™ that removes by hand & requires no tools. Traditions™ has made sure you can have an accurate, lightweight, & legal muzzleloader all in one!
The Pursuit™ G4 Ultralight features a wider forend to provide a better grip & hand position when shouldering the rifle. The Pursuit™ G4 Ultralight weighs in at 5.75 pounds thanks to the 26” Chromoly steel barrel & LT-1 Alloy frame.

Check out the specification & price charts located in the back of the catalog on pages 56-57 for more information.

**19 CLASSIC MUZZLELOADERS**

RALPH CIANCIARULO

Florida was good luck when Ralph of *The Choice* harvested this nice buck with his StrikerFire® & Smackdown® Carnivore™ bullets.

**TRADITIONS™ PA Pellet™ Ultralight** is a game changer for your Flintlock season!

Based off the popular PA Pellet™ Flintlock, the Traditions ULTRALIGHT chipset is a premium grade Chromoly steel, which is typically found on centerfire rifles. This material makes the barrel extremely strong, lightweight, & accurate. The 1:28” twist allows you to fire saboted bullets & modern muzzleloading projectiles. Additionally, the barrel has a Nitride finish which is designed to protect both the inside & outside of your barrel against rust & pitting caused by weather & corrosion.

**MAIN FEATURES:**
- 26” Chromoly Barrel with Nitride Finish or SS CeraKote inside & out.
- Rubber butt pad.
- Ignites loose powder or pellets.
- In-line ignition.
- Improved harden frizzen.
- Accelerator Breech Plug™
- Left-Handed Model Available
- Williams™ Fiber-Optic Sights
- 1:28 Twist Rifling
- Sling Swivel Studs
- Solid Aluminum Ramrod
- Traditions™ Limited Lifetime Warranty

**OTHER FEATURES:**
- Accelerator Breast Plug™
- Left-Handed Model Available
- Williams™ Fiber-Optic Sights
- 1:28 Twist Rifling
- Skew Sear/Stock
- Traditions™ Composite/Leather laminate

**ACCELERATOR BREECH PLUG™**

Simply twist it & loosen until it’s removed from the barrel for easy cleaning.

**Check out the specification & price charts located in the back of the catalog on pages 56-57 for more information.**

**STARTER & BLANK PISTOLS**

**COMPETITIVE STARTER GUN FIBER 200 SHOTGUN PRIMERS**

A blank pistol with the strength to stand up to frequent use & for those who prefer a larger, more hand-filling pistol. This deluxe blank pistol has the feel & balance of many conventional pistols. A solid barrel with a red plug identifies that the barrel is safe & is not a real gun. The cylinder swings out for loading the five (5) primers. Comes in a handy plastic, foam lined storage & carrying case.

FLINTLOCK ACCESSORIES

DEERHUNTER™

It doesn’t matter your level of experience, the Deerhunter™ will fit your needs. It has been designed to be lightweight, easy to shoot & incredibly accurate for a very modest price. This rifle has a 24” octagonal barrel with the choice between a rugged synthetic or wood stock. The Deerhunter™ is designed to shoot full bore sized bullets, sabot loaded bullets & patched round balls accurately. String on top of the rifle is adjustable Williams™ metal fiber-optic sights that give you pinpoint accuracy in any light conditions.

MAIN FEATURES:
- Flintlock or percussion models available.
- Premium Carbon finish on the barrels of various models.
- Percussion models drilled & reamed for scope rings.
- 24” octagonal barrel.
- Crisp hunting trigger.
- Upgraded rubber butt pad.
- Williams™ Fiber-Optic Sights
- 1:48 Twist Rifling
- Sling Swivel Studs
- Solid Aluminum Ramrod
- Traditions™ Limited Lifetime Warranty

OTHER FEATURES:
- Deluxe brass powder flask.
- Brass pan primer.
- Brass adjustable powder measure with swivel top funnel.
- Deluxe brass pan primers.
- Universal cleaning pick.
- Pan primers.
- Copper pan brush.
- 4-Sided steel screwdriver.
- Solid brass top jaw rod.

CRISP HUNTING TRIGGER
The Deerhunter™ is designed with a synthetic stock.

SYNTHETIC RAMROD
The Deerhunter comes equipped with a synthetic ramrod.

FLINTLOCK ACCESSORY KIT
No flintlock shooter should be without this tool! Essential for helping to clear powder from the pan & the lanyard loop makes it easy to carry.

FLINTLOCK TOOL KIT
- Compact & easily attach to a backpack or belt loop.
- For cleaning brush.
- Nickel silver cleaning brush.
- Brass pan & bullet pick.
- Williams™ metal fiber-optic sights.

FLINTLOCK SHOOTER’S KIT
- Deluxe brass powder flask.
- Brass pan primers.
- Brass adjustable powder measure with swivel top funnel.

FLINTLOCK PAN BRUSH
Compact brush dispenses 3 grains of priming powder from spring activated spout. Solid brass tip disperses with ease in carry.

FLINTLOCK PAN PRIMERS
Compact brush dispenses 3 grains of priming powder from spring activated spout. Solid brass tip disperses with ease.

DELUXE FLINTLOCK FRIZZEN
Replaces the frizzen of the deluxe lock used in the PA Pellet™ & most other Traditions™ models. This frizzen has a larger, hardened face to produce a better, more consistent spark.

FLINTLOCK FRIZZEN
Replaces the frizzen of Traditions™ older production of flintlock muzzleloaders.

FLINTLOCK ACCESSORIES

PERCUSSION MODELS AVAILABLE

CRISP HUNTING TRIGGER

ALSO AVAILABLE
- English Flints, the most popular from available, hand-stripped for a dependable shower of sparks.

HAWKES’WOODSMAN RIFLE
The Hawkes’ Woodsman is a serious hunting rifle. The color case-hardened lock features a V-type mainspring for fast lock time. The full-length two-piece stock of walnut-finished select hardwood is accented by solid brass furniture.

MOUNTAIN RIFLE
Based off of a Jacob & Samuel Hawken design, the Mountain Rifle uses the invariable component of flint & percussion systems. Half of the “plains rifle” family, the Mountain Rifle could be found on the horseback of fur trappers & American explorers alike. Based off of a Jacob & Samuel Hawken design, the Mountain Rifle was the inseparable companion of fur trappers & American explorers alike.

TRAPPER PISTOL
Most of the early mountain men & traders carried a single-barreled pistol. Many were popular for years. These pistols had a great deal of importance to a trapper who might have to live by a pistol alone. It was a matter of life or death. The Trapper pistol uses set triggers (with a preset or unset) to allow you to expect predictable shots on target. The Trapper pistol’s protective style adjustable rear sight, integral barrel & side ejection (capable of firing in sauté mode) allow you to predictably put your shots on target.

PRAIRIE HAWKES™ RIFLE
“Tradition” Prairie Hawken™ Rifle is based off of rifles used during the Rocky Mountain Fur Trading era. The Prairie Hawken™ Rifle features a 2-tenon design & is available in either percussion or flintlock. The double set trigger, custom silver inlays, & finishes add to the beauty of this sidelock rifle.

KENTUCKY PISTOL
A classic American pistol, the Kentucky was a must have for American Pioneers & early 19th Century Explorers. The Kentucky was made famous by the battle of Tippecanoe & Fort Maysville by Henry Clay. The Kentucky has long been a popular choice with many enthusiasts due to its classic design & lightweight feel. The Kentucky pistol will please both the collector & novice alike. Whether you are a die hard or just a weekend enthusiast your fully functional Kentucky will meet your needs.

CLASSIC MUZZLELOADERS & PISTOLS

PENNSYLVANIA RIFLE
A historically accurate rifle, hundreds of the reliable status of “authentic for re-enactment use” from The American Revolutionary Brigade, recreates the finest features of the classic long rifle. A flintlock & percussion model, it features a full-length walnut stock with flintlock, solid brass patch box, shoe lift & ramrod, bore plug & ramrod thimbles. Alum set triggers. Adjustable rear-style rear sight. Custom detailing throughout, without custom cost.

TRAPPER PISTOL
Most of the early mountain men & traders carried a single-barreled pistol. Many were popular for years. These pistols had a great deal of importance to a trapper who might have to live by a pistol alone. It was a matter of life or death. The Trapper pistol uses set triggers (set or unset) to allow you to expect predictable shots on target. The Trapper pistol’s protective style adjustable rear sight, integral barrel & side ejection (capable of firing in sauté mode) allow you to predictably put your shots on target.

**1863 ZOUAVE MUSKET KIT**

KR6186306 .58 Caliber Rifled / Percussion

The 1853 Enfield was used in the Civil War by both the North and the South. The Carbine version was produced more of these guns during the war and has an overall length of 46 inches, while the .56 carbine was similar to the 1853 Enfield. It was the second most widely used rifle before the 1861 Springfield. The original 1853 Enfield had a 30” barrel and was fitted to the stock with 3 metal bands. This model is also known as the “three band” model.

Classics is a trade mark of Traditions®.
Traditions™ Cannons are fully operational & accurate in scale & detail. These are perfect for shooting especially around Memorial Day & the 4th of July. Available in a variety of styles & platings, these cannons are sure to be a fun tradition for you for years to come!

1. NAPOLEON III & 5. MINI NAPOLEON III
Reincarnates of the canons used by the armies of both the North & South during the Civil War. Built in two sizes, each featuring metal-rimmed wheels. Offered in large scale. 40 caliber with authentic accessories & 30 caliber iron version.

2. MINI OLD IRONSIDES
British guns proved no match for the deck guns of the U.S.S. Constitution. Our replica features authentically-styled naval carriage & barrel.

3. YORKTOWN
Field artillery came into its own during the American Revolution, notably in General Washington’s victory at the Battle of Yorktown. This faithful model features the split-trail carriage that gave our army mobility.

4. OLD IRONSIDES
This model is nearly three times heavier than its’ little brother. This 50 caliber has the look & feel of a working piece of artillery.

5. MINI NAPOLEON III
Reminiscent of the cannon used by the armies of both the North & South during the Civil War. Built in two sizes, each featuring metal-rimmed wheels. Offered in large scale. 40 caliber with authentic accessories & 30 caliber iron version.

6. MOUNTAIN HOWITZER
The Mountain Howitzer will be a great addition to any Civil War enthusiast’s collection! This mini cannon is reminiscent of the larger version used during various wars but notably during the Civil War. Our replica is smaller, lighter, & fully functional.

**DELUXE SOFT CASE**

This case is an excellent way to transport your firearms or store them! The foam padding keeps your gun cushioned. This case can be used in place of your own case for easy transportation. Includes bronze bristle brush, nylon bristle brush, cleaning swab, slotted jag, & two piece rod with nipple wrench.

**DELUXE POSSIBLES BAG**

This bag is designed to carry all of your accessories comfortably & securely. Works great with Traditions™ charge in loaded & great on your Traditions™ belt!

**POSSIBLES BELT POUCH**

A great way to carry accessories & ammunition. Even though available on a pouch, you can also order them on a belt. Keeps all your accessories accessible at all times.

**SHOTGUN LOADING STAND**

A good looking & convenient way to keep your guns ready & loaded! Great idea for storing bed & breakfasts or any home that has guns. Includes shotgun loading stand, cleaning swab, slotted jag, & two piece rod with nipple wrench. Deluxe Soft Case can fit up to a 48" scoped gun making this a perfect accessory for your muzzleloader!

**SLIM JIM SINGLE ACTION LEVER DISPLAY STAND**

A single action, Lever action, & all .44 caliber guns. Fits all single action guns and fits all models. Plastic gun rests securely in cradle, eliminating the need for a shooting rest. Gun is supported on a field rest, providing a steady support back strap securely. Allows for easy loading of chambers of a cylinder when removed from the gun. Fits 1851, 1860, & 1873 models. Will not fit .31 caliber cylinders. Cylinder sold separately. Cylinder sold separately.

**SPARE CYLINDER FOR BLACK POWDER REVOLVER**

Always for easy loading of chambers of a cylinder when removed from the gun. Fits 1851, 1860, 1873 & 1858 models. Will not fit .31 caliber cylinders. Cylinder sold separately.

**REDI-PAK™ BLACK POWDER REVOLVER KIT**

This product can expose you to chemicals including lead, which is known to the State of California to cause cancer & birth defects or other reproductive harm. For more information go to: www.P65Warnings.ca.gov.
Union Army soldiers relied on many different types of sidearms for short range & close quarters combat. The revolver was unique in that it had the ability to fire several rounds per minute before having to reload. Revolvers were typically issued to officers & resorted soldiers, however some were purchased privately or found on the battlefield by infantrymen. The 1851 Navy Revolver is distinguished by its octagonal barrel & lever style loader. The 1851 helped to begin both the expansion of the West & the Civil War. The 1851 Navy is commonly considered to be one of gunfighter “Wild Bill” Hickok’s favorite handguns.

1858 New Army Revolver

Designed to be the future of revolvers, the top strap, full frame design made the 1858 New Army Revolver one of the strongest available. During the Civil War, its 8” barrel (with the exception of the 1858 Bison Revolver) & reliability made it highly sought after.

1858 Bison

This modern interpretation of the Model 1858 brings a new dimension to black powder revolvers. The 12” octagonal barrel & adjustable sights makes the Bison different from all the rest.

1860 Army Revolver

Recognized as the mainstay of the Union Army, the 1860 was ordered to fill the ranks. The .44 caliber revolver was as powerful as it was popular. After the Civil War, 1860 revolvers could long be found in Army posts & across the Frontier.
The Frontier Series showcases all of our top quality features & finishes. We offer our 1873 Single Action revolvers with your choice of blued, nickel, or color-case hardened barrels & blued or nickel barrels, all polished to perfection. Additionally, you can choose from white PVC or walnut grips. This Frontier Series revolvers are truly shooting works of art & will look great at the range or as display in your home. Again, these revolvers come equipped with the transfer bar safety system to give you the highest level of safety possible. Traditions™ takes great pride in offering authentic replicas of perhaps the most famous handgun ever made. The 1873 Single Action Revolver has only slight variations from the 1873 Colt Single Action Army Revolver, arguably the best selling pistol ever produced. This six shooter from the Old West was the favorite of Wild Bill Hickok, Wyatt Earp, Calamity Jane & many other notorious frontiersmen.

With two series to select from, the Frontier Series & the Rawhide Series, there are a wide selection of finishes, grips, calibers, & barrel lengths to choose from. All Single Action Revolvers by Traditions™ come equipped with a transfer bar safety which gives you the highest level of safety offered on a Single Action firearm. Now you can have a piece of history by purchasing one of these classic Single Action Revolvers!

**Rawhide Series**

Traditions™ has added two new models to the Rawhide Series of Single Action Revolvers! Known as the Rawhide Ranchers both models come in .22LR with a 4.75" Blued Barrel. This caliber is fun to shoot and these revolvers are perfect for a day at the range. Extremely affordable with excellent fit and function, the Rawhide Rancher won’t break the bank and is an excellent addition to any collection. The Rawhide Rancher series has a 6 round cylinder and is available with Black PVC Checkered Grips or with Wood Grips.

**SAT73-22250**
0.22LR / 4.75" Blued

**SAT73-22053**
0.22LR / 4.75" Blued

**Buntline**

It is said that dime novelist Ned Buntline gave these extra-long barrelled revolvers to groups of select men of the Old West including Bat Masterson & Wyatt Earp.
OUTFITTER G3
SINGLE-SHOT CARTRIDGE RIFLE

PERFECT FOR WHITETAIL & LARGE GAME.

The NEW Outfitter G3 is a break-action single shot cartridge rifle. It is the perfect choice for whitetail and large game hunting! With a 22” or 16.5” Premium Lothar Walther barrel, the Outfitter G3 is lightweight, easy to carry, and extremely accurate. The muzzle break incorporated on the 450 Bushmaster, 35 Whelen, 350 Legend, and 35 Whelen calibers helps to reduce recoil. Safety is a priority for Traditions and they’ve incorporated The NEW Elite XT™ Trigger and Dual Safety System. Available in a variety of calibers, the Outfitter G3 is what you’ll want with you on your next hunt!

- 22” or 16.5” Lothar Walther Barrel
- Manual Trigger Block Safety
- Steel Frame
- Muzzle Break comes on 450 Bushmaster, 35 Whelen, 45/70 & 350 Legend
- NEW Elite XT™ Trigger with precise and accurate trigger pull and captive half cock position
- 11 Degree Target Crown
- Drilled & Tapped
- Lightweight & maneuverable
- Excellent for smaller framed shooters
- Patent-Pending QD Forend available on select models

BRAD FENSON dropped this beauty with his Outfitter G2!

Traditions™ has added the NEW Elite XT™ Trigger to the Outfitter G3. The trigger has a precise and accurate trigger pull and is also able to be put into a captive half cock position. The captive half cock position enables the trigger to be pulled back and set so that the Outfitter G3 can be broken open and your cartridge removed. When you are ready to fire, pull the hammer the rest of the way back until it locks into place with the safety on. The Outfitter G3 is now fully cocked and ready to go!
Tradition's® NEW Crackshot™ XBR™ is the ultimate package which comes with a .22 caliber single shot Crackshot™ rifle, arrow-launching XBR™ upper, 4x32 scope, and three Traditions™ Firebolt™ Arrows. The Super Shocked Tip Bullet was designed to provide the shooter lower recoil and faster follow-through compared to other bullet styles. Its custom lead core ensures controlled expansion, while a taper jacket interlocks to create a deadly combination. The bullet is perfect for small plains game, predators, varmints, and big game, delivering traumatic force and hitting harder due to the PC tips which maximize terminal energy penetration. The polycarbonate tip maximizes terminal expansion without sacrificing weight retention and accuracy. The new & improved Ridgeback™ Sabot has horizontal ribbing & a deeper cup, additionally providing a better gas seal, easier loading, and improved accuracy. This bullet is perfect for small plains game, predators, varmints, and big game. It provides bone crushing performance equal weight using an identical projectile. Our redesigned Ridgeback™ Sabot creates the perfect gas seal every time.
